

Music Note Chart

Note names, note values, rests and accidentals at a glance

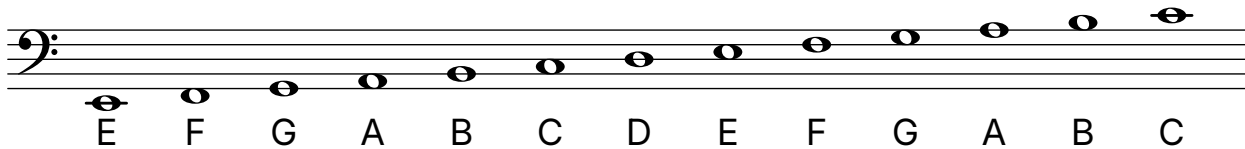

Treble clef

Sopranos and altos read the treble clef, tenors usually too, one octave lower. The C on the ledger line below the staff is middle C on the piano.

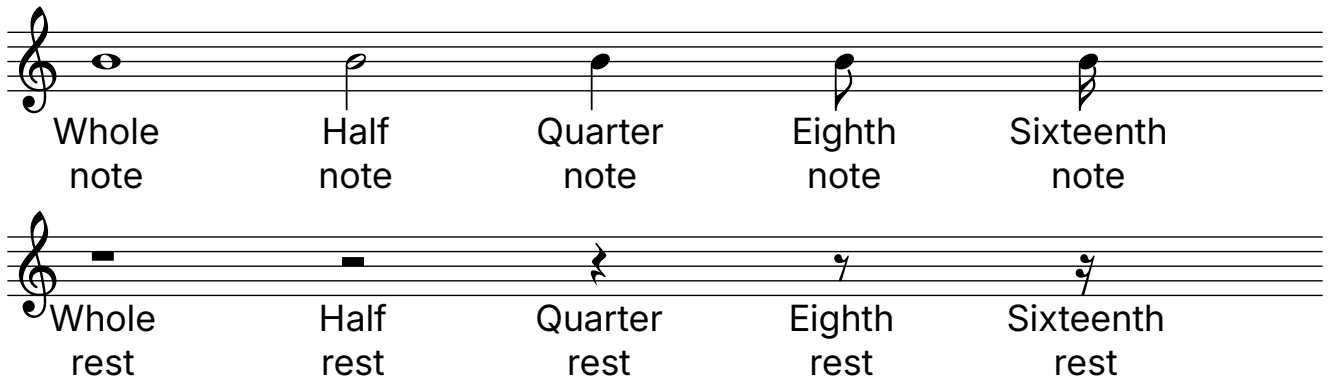

Bass clef

Basses read the bass clef. The C on the ledger line above the staff is the same middle C as below the treble clef.

Note values and rests

Each note value lasts half as long as the one before. Every note has a rest of the same length.

Accidentals

A sharp raises a note by a semitone, a flat lowers it by a semitone, a natural cancels both.
